Vermeer launches HDD tooling and accessories warehouse
BORESTORE features more than 1,100 products

PELLA, Iowa — Vermeer Corporation will introduce the BORESTORE tooling and accessories warehouse at this year's Underground Construction Technology (UCT) International Conference & Exhibition in San Antonio. BORESTORE offers the complete line of Vermeer horizontal directional drill tooling and accessories, available to contractors 24/7.

HDD contractors can shop the Vermeer BORESTORE by any of three ways: by going to BORESTORE.com, calling the BORESTORE tooling experts at 866-VERMEER (866-837-6337), or visiting any of 120 Vermeer dealers coast-to-coast.

"Many times, HDD contractors are in the midst of a time-critical job and need tooling within a day," said Mark Core, vice president of marketing and lifecycle solutions. "BORESTORE offers them the ability to conveniently access the collective inventory of the Vermeer network to help meet their needs in the shortest amount of time possible."

BORESTORE features more than 1,100 products in all categories of tooling and accessories, including Firestick® drill rod, rock tooling, reamers, electronics, geothermal tooling and more. Various shipping options are also available including local dealer pickup, direct ship — even overnight delivery — to ensure customers receive products quickly.

BORESTORE products are backed by Vermeer local dealership support.

For more information on Vermeer products and services, visit the company's website at www.vermeer.com or email Vermeer at salesinfo@vermeer.com.

Vermeer Corporation of Pella, Iowa, U.S.A., manufactures a full line of tub and horizontal grinders, brush chippers, stump cutters and tree spades, as well as horizontal directional drilling systems, mini skid steers, utility and track trenchers and
